Walking Seattle: 35 Tours Of The Jet City's Parks, Landmarks, Neighborhoods, And Scenic Views

Synopsis

The Queen City of the Pacific Northwest was once known principally for the spectacular forests, mountains, and waters surrounding it. But now, what's in Seattle is as famous as what's outside it. This is a vibrant young city full of attractions. It's a center for several hi-tech industries and a crossroads of global cultures. Seattle is also one of the most walkable cities in the country. It's full of cozy bungalows, stately mansions, postmodern palaces, and outdoor art all over. It has wide boulevards, narrow cobblestone lanes, and carless pedestrian pathways. Walking Seattle reveals 35 specially designed urban treks that are not only good exercise but are a great way to soak up the city's history, culture, parks, and vibe. Commentary includes trivia about architecture, local culture, and neighborhood history, plus tips on where to dine, have a drink, or shop. Each tour includes a neighborhood map and vital public transportation and parking information. Route summaries make each walk easy to follow, and a "Points of Interest" section lists each walk's highlights. Local insider Clark Humphrey leads you from Greenwood to Rainier Beach, from Green Lake to Fauntleroy, and many places in between. Walking Seattle. Get it, and get moving.

Book Information

Series: Walking

Paperback: 256 pages

Publisher: Wilderness Press (August 9, 2011)

Customer Reviews

I like the layout of this book, walk recommendations, places to stop and eat, and linking walks together. I also purchased the Portland book and plan on getting the SF book now too. I've got a trip to the Northwest coming up next month and plan to use this extensively. My only wish on these is

for one large map of Seattle, with the various walks highlighted, so I have a better understanding of which walks are where within the city. For someone who has almost zero experience with the layout. Overall, I would recommend!

My mom lived in Seattle but was homebound; didn't really know where things were. I got this book a few months before visiting her to get a detailed lay of the land. We walked a few of the routes, and drove a few more (better to have walked, methinks!!). Made for a nice visit, and an eye-opener for mom.

love this book! i live in Seattle but thanks to that book now i walk more and learn about city

I usually love these Walking books. This one focused way more on the architecture and way less on the current restaurants and shops.

Great book! Very well laid out and a great resource when in Seattle!

Our niece lives in Seattle and works for Boeing. She does not know too many people so was thrilled to find the various neighborhoods!!

Perfect!

The book provides some interesting information about the city but some of the walks seem hard to follow and read about at the same time.
