International Economics, 12th Edition

Synopsis

International Economics by Dominick Salvatore presents a comprehensive, up-to-date, and clear exposition of the theory and principles of international economics. Salvatore presents concepts that are essential for understanding, evaluating, and suggesting solutions to the important international economic problems and issues facing the United States and the rest of the world today and that they are likely to face in the coming years. Neither overly complex nor too simplistic, International Economics helps readers see the immediate relevance of the material and contains an unparalleled number of real-world applications and examples.
