Get Your House Clean Now: The Home Cleaning Method Anyone Can Master

Synopsis

Ready for the New Year? A clean home is within your reach! You can become an expert at cleaning your home. All you need are the right tools and supplies, a little motivation, and the method that Beth McGee has perfected over 20 years as a home cleaning professional. Beth shares the products, process, and encouragement you need to make this seemingly daunting task manageable. This is your year to make your home clean and comfortable with ease. *Get Your House Clean Now: The Home Cleaning Method Anyone Can Master*, is filled with unique information beyond the recycled cleaning tips you've seen on the Internet. This is not a seven day or 30 day course on getting your home clean. This book will prepare you to get your house clean as soon as you're ready to get started, no matter how dirty it is. You will learn how to clean, declutter, and organize your home as a simple and rewarding habit, not a chore. Whether you just want your home to sparkle, start your own cleaning business, prepare your home to rent or flip, or help your house cleaner work most effectively for you, this book will help you do it. Beth will instill in you knowledge to last a lifetime, so you can experience the joy and benefit of a clean and tidy home.

Customer Reviews

I loved this book! The author's engaging writing style actually got me excited about cleaning and decluttering my house. She provides many specific product recommendations which I found extremely helpful since I have no clue about cleaning. I can't tell you how many terrible vacuums I have gone through. She recommends two that I will look into--wish I'd had this book years ago. McGee provides cleaning instructions room by room. This approach makes me less anxious about the idea of tackling, say, my kitchen on a weekend. It can be done, and it's not that difficult. Enjoyed her views on dealing with clutter. Highly recommended. This is the only book you'll ever need on cleaning.

Beth McGee's book *Get Your House Clean Now* is a very handy book to have around. I love keeping a clean sparkling house so I was drawn to this book. I'm always anxious to know about any tricks and products that I might not know about, and this book did not disappoint. I found the book to be enjoyable and easy to read. The writing style is pleasantly personalized but at the same time get she gets right down to business. The author starts the book out with a discussion of the proper tools and cleaning agents that she recommends. She methodically provides cleaning techniques in an orderly fashion for each room of the house. With Ms. McGee's guidance, your entire house will be effortlessly cleaned from top to bottom in no time at all. This book will be one of the staples in my home.

Why did I choose this book? Because I must learn how to clean my home effectively. I'm a single man right now and I want my house to be not only presentable but I want to be proud to have people over and for entertaining. What was my experience with reading this book? The author made the task seem very manageable. After reading this book I guess there isn't all that much to do to clean the house thoroughly! From the kitchen to the living spaces to the bedrooms to the bathrooms and to the other rooms, the author gave a very comprehensive approach to cleaning. Would I recommend this book to others? Absolutely! Without a doubt I would. This book has been incredibly valuable to me and I'm actually motivated to clean my house now that I have a comprehensive plan that I trust in. Five stars all the way!

This is an excellent book and I highly recommend it. McGee provides detailed (but simple) instructions on how to clean a house or apartment, and what products and tools to use. The book is an easy, enjoyable read. My home has been cleaned using these techniques: the results are clean, fresh smelling, and comfortable (with a minimal expenditure of effort and money), just what I wanted!

no anecdotes, no psychological analysis, no history of cleaning Just right to the point .. buy this do that (in this order) You can skim it in less than 30 minutes and then return to make up your shopping list - get rid of all the goofy things bought over the years (The mop, I purchased, she recommended is worth the price alone. Thanks Beth

I have let my house go for a few years due to pain and depression, but once I started reading this book I was motivated to get things back in order. Beth McGee is not only an experienced professional, but she comes across as being genuinely interested in helping you understand that you are worthy of a clean and happy home.

It's funny -- I thought I knew the best way to clean my house, but McGee gave my routine a tweak, and it works! I DO think vinegar and hydrogen peroxide are useful cleaning agents (she doesn't), but that's okay -- I love her other cleaning tips.

This book has a great layout and offer some very helpful and practical advice. No fancy equipment is needed. In most cases you're using good 'ol soap and water. But it helps you get the job done quickly and efficiently. Also offers helpful advice on decluttering your house and simplifying your life.
