Affliction: Green Fields Book 7

Synopsis

Something is rotten in the state of California. The dawning civil war has ended in a truce. Scavengers and traders all over the country are settling down for the long, hard winter to come. With their new camp outside the maze of New Angeles at the coast growing every day, Bree, Nate, and the gang have their hands full yet something is not quite right. Maybe one last run before the winter is all that's needed to cure that itch. What could possibly go wrong?

Customer Reviews

Loved it! Slightly tamed down version of her previous books in the series but that did not diminish my enjoyment of the book. Cant wait for the next one!

Yet another kick ass addition to the GF series. Like a punch in the gut but you just want more! If you haven't read any of this series you are missing out! It's rare to find a zompoc so well written and with a story you want to read. A. Lecter has made us fall in love with all the characters. If you love horror,

zombies, or straight up sometimes scary accurate zombie fiction this is the series you NEED to read!

This series keeps getting better-a hard thing to do given that the first 6 books were amazing. I read a lot of apocalyptic/dystopian fiction and this entire series is one of my favorites. Well written, engaging, believable enough to make me question my preparedness the night after binge reading. My only issue with the book is that now I have to wait for the next one-and she manages to write them in record time, so it's not that much of a problem.

Well worth the five stars read the other six books and just finished the seventh one loved this one just as much so excited about reading the eighth one when it comes out loved all seven books great author highly recommend for people to read all seven books.

I hate to give anything away as a spoiler, but this book has everything and I only want more.. what an incredible love story weaved into the adventure and intrigue.. and finally we get Nate opening up just a little.. I loved it.. hurry up book 8

Once again i read in one sitting. This series just keeps getting better and better. I gritted my teeth through the last couple chapters.

So it's 2.28 am and I have not stopped reading since I opened this book at 2 pm,talk about nail biting laugh out loud awesomness,absolutely cannot wait for the next installment,a huge thank you to miss Letter for reignighting my love of the written word.

I enjoy this series very much, and I'm super happy Adrienne plans to keep writing more. The heroine is snarky and sarcastic (just like me!), all the action scenes are well written, and the science makes everything feel very real. This is one of the better zombie series out there and I think more people need to know about it.
