English Made Easy Volume Two: A New ESL Approach: Learning English Through Pictures

Synopsis

This is a fun and user-friendly way to learn English. English Made Easy is a breakthrough in English language learning • imaginatively exploiting how pictures and text can work together to create understanding and help learners learn more productively. It gives beginner English learners easy access to the vocabulary, grammar and functions of English as it is actually used in a comprehensive range of social situations. Self-guided students and classroom learners alike will be delighted by the way they are helped to progress easily from one unit to the next, using a combination of pictures and text to discover for themselves how English works. The pictorial method used in this book is based on a thorough understanding of language structure and how language is successfully learned. The authors are experienced English language teachers with strong backgrounds in language analysis and language learning. English Made Easy, Volume 2 consists of a total of 20 units arranged in groups of five. The first four units presents language and provide learners the opportunities to practice as they learn. The first page of each unit has a list of all the words and phrases to be learned in that unit, together with pronunciation guide. At the end of each unit, an interesting story which uses the language that has just been learned is presented. The fifth unit in each group contains exercises designed to reinforce the language learned in the first four units.

Jonathan Crichton has over fifteen years' experience in teaching and research in English language

education and has published widely in related areas. He holds a PhD in Linguistics and an MA in Applied Linguistics. Pieter Koster has many years experience in English language education and the design and development of learning materials. He is the author of four school textbooks published by MacMillan in Japan and Compass in Korea and Taiwan.

I don't think that these are very helpful for teaching or learning English. I teach ESL to adults and I bought both volumes. I still haven't used one page from either book for any of my lessons.. Mainly because the books are comic strips without words. You have to have the students insert the dialogue. This could be a supplemental activity if you are following some type of curriculum book. This would be for someone who has developed a great vocabulary and wanting to get extra practice.

Loved this book! Clear, easily understandable, and geared toward the everyday needs of new English language learners. Shopping, transportation, banking, household items, greetings, and so on. An extra plus: they use pictures of adults instead of children. It is difficult to find beginning materials not geared toward children. Was delivered on time, in excellent condition. Highly recommend this seller.

I returned this book as it is English as a Foreign Language concentration. It has lessons on travel and activities for younger students. I teach adult ESL students who need life skills lessons not how to travel lessons! I wish the description or in the book it would have said something about being for younger students who

I am making this book part of my arsenal for tutoring students who want to learn the English Language. They need to get comfortable with using the language and I need materials that will help them.

A great book to have in one's English book collection. Great for teaching English to students or adults at all ages. Easy. Simple. Good text and supporting images. Easy to follow.

Starting a new ESL student in a few weeks. Looking forward to putting it to use.

it was exactly what I expected as it was described

I bought these materials for one of my students at our Seminary of the Cross in Reynosa, Mexico. She feels that the Lord is calling her to serve as a missionary in India. So, I encouraged her to learn English well then we will help her get a good Bible College education in the U.S.A. and our Foreign Mission Board will help her with support as she goes to India. She is delighted with all of the material she received.
