The Cure Of Imperfect Sight By Treatment Without Glasses: Illustrated

Synopsis

The Cure of Imperfect Sight by Treatment Without Glasses by William Horatio Bates. A brilliant book written by an eye-surgeon for the masses. William Horatio Bates (1860–1931) was an American physician who practiced ophthalmology and developed what became known as the Bates Method for better eyesight,[1] an educational method intended to improve vision by undoing a supposed habitual strain to see. The book contains findings after decades of research and experimental work into various eye disorders. Even though he expected to find some errors in the old theories and beliefs used for the past 150 years, he was amazed at his own discoveries and the effect they had for the treatment of defective vision. Bates graduated A.B. from Cornell University in 1881 and received his medical degree at Columbia University's College of Physicians and Surgeons in 1885. He formulated a theory about vision health, and published the book Perfect Sight Without Glasses in 1920. Parts of Bates's approach to correcting vision disorders were based on psychological principles, which were contrary to many of the medical theories of the time and remain so. The Bates Method still enjoys some limited acceptance as a modality of alternative medicine.

Customer Reviews

William H Bates should be a common household name. i cannot fault individual professionals for practicing what they feel is proper and true but those who sought to discredit Dr. Bates should be held to account, even posthumously.

excellent

Livro base de minhas pesquisas, apesar da organizaÃ§Ã£o Ã© antiquada para nossa Ã©poca, traz as versÃµes Ã© consagrada com fotos das cirurgias com os animais e finalmente "legaliza" a obra, a qual antes, era conseguida apenas em PDF, ou outras versÃµes impressas que cortavam as fotos e detalhes importantes de seus comentÃ¡rios. Para mim o livro ainda merece boas leituras visto que, Bates era um neurocientista para a Ã©poca. Merecia uma impressÃ£o de melhor qualidade, mas, as fotos do livro sÃ£o antigas, as imagens cÃ³pias e recÃ³pias deste livro depreciou a qualidade das fotos. VersÃ£o completa. recomendo. Paper based on my research, despite the outdated organization for our time, brings the release of photos devoted to surgery with the animals and finally "legalizes" the work, which was formerly achieved only in PDF or other printed versions that cut the pictures and important details of his comments. For me the book still deserves good readings since, Bates was a neuroscientist at the time. He deserved a better quality print, but the photos in the book are old, and the numerous copies of this book recÃ³pias depreciated the quality of photos. Full version. recommend.

I have this book. There may be a few red... versions. It's a original gem from Dr. Bates. Antique! Rare! Truly improves the vision and health of the eyes. Contains practices removed from later edited editions due to pressure from eye surgeons, people wanting to hide The Bates Method so they can sell addictive eyeglasses and surgery. Tried to contact the sellers on but can't find out how do this. Please contact me through my profile if you find the blue cover edition, 'if one exists'. Also interested in the older and new red and green cover editions; one with dust jacket, other with a mis-spelling on top of page 41, on red is darker, maroon maybe. One has no printer listed, may be the 1st edition. Want to buy all variations, editions. I will pay any price. Wonderful books, Thanks for

preserving! This is Dr. Bates' article stating the problems he had with other doctors (who preferred to sell eyeglasses, eye surgery) when Dr. Bates was curing their patients naturally; Other Doctors try to hide Dr. Bates' discoveries from the public. Doctors expelled Dr. Bates from the Hospital he worked at after Dr. Bates cures patients without glasses, surgery, drugs and proves the facts of Natural Eyesight Improvement. Fifteen or twenty years ago the specialist mentioned in the foregoing story read a paper on cataract at a meeting of the ophthalmological section of the American Medical Association in Atlantic City, and asserted that anyone who said that cataract could be cured without the knife was a quack. At that time I was assistant surgeon at the New York Eye and Ear Infirmary, and it happened that I had been collecting statistics of the spontaneous cure of cataract at the request of the executive surgeon of this institution, Dr. Henry G. Noyes, Professor of Ophthalmology at the Bellevue Hospital Medical School. As a result of my inquiry I had secured records of a large number of cases which had recovered, not only without the knife, but without any treatment at all. I also had records of cases which I had sent to Dr. James E. Kelly of New York and which he had cured, largely by hygienic methods. Dr. Kelly is not a quack, and at that time was Professor of Anatomy in the New York Post Graduate Medical School and Hospital and attending surgeon to a large city hospital. In the five minutes allotted to those who wished to discuss the paper, I was able to tell the audience enough about these cases to make them want to hear more. My time was, therefore, extended, first to half an hour and then to an hour. Later both Dr. Kelly and myself received many letters from men in different parts of the country who had tried his treatment with success. The man who wrote the paper had blundered, but he did not lose any prestige because of my attack with facts upon his theories. He is still a prominent and honored ophthalmologist and in his latest book he gives no hint of having ever heard of any successful method of treating cataract other than by operation. He was not convinced by my record of spontaneous cures, nor by Dr. Kelly's record of cures by treatment; and while a few men were sufficiently impressed to try the treatment recommended, and while they obtained satisfactory results, the facts made no impression upon the profession as a whole, and did not modify the teaching of the schools. That spontaneous cures of cataract do sometimes occur cannot be denied; but they are supposed to be very rare, and any one who suggests that the condition can be cured by treatment still exposes himself to the suspicion of being a quack. Between 1886 and 1891 I was a lecturer at the Post Graduate Hospital and Medical School. The head of the institution was Dr. D.B. St. John Roosa. He was the author of many books, and was honored and respected by the whole medical profession. At the school they had got the habit of putting glasses on the nearsighted doctors, and I had got the habit of curing them without glasses. It was naturally annoying to a man who had put glasses on a student

to have him appear at a lecture without them and say that Dr. Bates had cured him. Dr. Roosa found it particularly annoying, and the trouble reached a climax one evening at the annual banquet of the faculty when, in the presence of one hundred and fifty doctors, he suddenly poured out the vials of his wrath upon my head. He said that I was injuring the reputation of the Post Graduate by claiming to cure myopia. Every one knew that Donders said it was incurable, and I had no right to claim that I knew more than Donders. I reminded him that some of the men I had cured had been fitted with glasses by himself. He replied that if he had said they had myopia he had made a mistake. I suggested further investigation. "Fit some more doctors with glasses for myopia," I said, "and I will cure them. It is easy for you to examine them afterwards and see if the cure is genuine." This method did not appeal to him, however. He repeated that it was impossible to cure myopia, and to prove that it was impossible he expelled me from the Post Graduate, even the privilege of resignation being denied to me. The fact is that, except in rare cases, man is not a reasoning being. He is dominated by authority, and when the facts are not in accord with the view imposed by authority, so much the worse for the facts. They may and indeed must win in the long run; but in the meantime the world gropes needlessly in darkness and endures much suffering that might have been avoided. (Medical doctors have passed a law making it illegal for anyone to use the word CURE unless they are a doctor.) What is happening to our country? There is still corruption in the medical field. (CAREFUL; Choose the TRUE 1920 edition. I see my review for the original is getting mixed in with newer versions that are not the original book. Some people reproduce, preserve the book perfectly. But; others reproduce and add unnatural, harmful methods to parts of the book. They date it 1920, but that date is incorrect if the book has been altered.)

5 stars for Dr. Bates work. Possibly this seller is the real thing. This book is listed on along with other versions that have been altered with the harmful PLUS LENS, Power Vision method. This book may or may not be authentic. I cannot see a full view on or Google so it's best to contact the seller first. It looks like the authentic, beneficial method. There is one 1940 version published by Emily A. Bates on the page that appears to be authentic. Search carefully for Dr. Bates books so you know are obtaining only the true, safe Bates Method. Books that contain only Dr. Bates work, or with a few modern treatments that are solely Bates teaching without use of eyeglasses, eye surgeries or drugs is the true method and it works! The picture on the cover of this book is misleading, it is not Dr. Bates. Dr. Bates cured his own vision with natural methods WITHOUT eyeglasses. He does not wear glasses. He warns people to avoid all types of glasses. Dr. Bates books alone contain the cures for myopia, presbyopia, astigmatism... and is all that a person needs

to gain clear eyesight and healthy eyes without glasses. Some Authors are altering Dr. Bates book, placing harmful methods in it; they are selling a dangerous method called 'PLUS LENS, Anti-Corrective', the use of eyeglasses that cause addiction to glasses. They are selling eyeglasses with a treatment that causes cataract, detached retina and other eye problems. They are in league with eye doctors, surgeons. So; no stars for; some modern book assemblers that have altered Dr. Bates work by adding un-natural treatments to Dr. Bates book. (I am referring to the books assembled by David De Angelis, Otis Brown and others. (Example; the blue cover version that has the subtitle; 'Bonus Inside, 40 page report about the PowerVisionSystem.) Avoid all books that are altered with the harmful PowerVisionSystem, 'PLUS LENS, Anti-Corrective Method'; using eyeglasses, causing addiction to glasses. They are actually selling eyeglasses, are in league with eye doctors, eye surgeons. The Plus Lens method causes cataracts, retina injury, detachment and many other eye, vision problems. Destroys the health of the eyes lens. (One of the authors developed cataract two times, astigmatism, extreme myopia, addiction to distant and reading glasses, has had lasik on his cornea and an eyeglass myopia prescription implanted in his eyes after 2 cataract surgeries. All caused by the Plus Lens method.) He tries to hide this as he advises this Harmful plus lens method to all people including children, pilots... Dr. Bates original treatments in the book are true, effective Natural Eyesight Improvement but the added modern PowerVisionSystem and Plus Lens Method are not Dr. Bates work, they are harmful. The PowerVisionSystem involves using dangerous Plus Lenses and un-natural eye stretching... exercises. Plus Lens Method causes cataract, astigmatism, retina injury, blur... Pilots, Kids, Seniors, all people avoid this dangerous method! The book assembler is the same author of another book that advises Plus Lenses and other books on the subject. It causes an addiction to reading glasses, impaired close vision and impairs the far vision. I strongly disagree with the Plus Eyeglass Lens Treatment that the assembler added to this book. It causes many eye problems, interferes with true natural healing. It is harmful to the eyes; Plus lenses are reading glasses, close vision glasses, magnifiers. I meet many seniors citizens and also younger people that have worn reading glasses for a few years or longer and it often results in cataracts, other eye damage. Eye circulation, lens, retina... health and the vision impair fast, immediately when reading glasses are used. The Plus Lens method increases this problem. Most Eye doctors are now placing a eyeglass lens prescription in the cataract replacement lens inside the eyes during cataract surgery; the person is then trapped with eyeglasses inside the eye. This maintains, increases the strain, tension, vision impairment, damages the eyes health, prevents natural eyesight improvement. The implanted eyeglass lens forces the eye, vision to remain impaired and increases impairment; when more impairment occurs

or if Natural Eyesight Improvement is practiced or if the eye naturally, on its own tries to return to normal function; the eyeglass lens in the eye will not fit, work with the impaired or improved eye condition, shape, new focus of light rays. Unclear vision will occur; like trying to see through an incorrect eyeglass prescription. The eyeglass lens will have to be removed by more surgery. If the eyes lens during cataract surgery is not altered, replaced with a eyeglass lens prescription near-sight, far-sight, astigmatism, bifocal..., then Natural Eyesight Improvement may be effective. The original true Bates method alone is enough and is safe, natural. Dr. Bates would not want this harmful method attached to his book. It is completely against the Bates method. Many people have been banned from the plus lens forums, Google, Yahoo groups when they speak up and post comments stating the truth, 'that the Plus Lens has impaired their vision and their children's vision'. Please post the truth on your forum, books. Allow the many people and their children that have been injured by Plus Lenses, Anti-Corrective method and people that are still wearing eyeglasses after years of Plus Lens use to post comments on the Forum, YouTube. The forum author always responds by sounding like he is an expert, scientist and accuses me of being naive, uneducated. This is how eye doctors speak to patients when the doctor wants to sell eyeglasses, surgery and hide Natural Eyesight Improvement from the patient. I have used Natural Eyesight Improvement for 37 years, it works and is safe. I see clear close and far by using the true Bates method without glasses, no surgery. On a forum, a co-author of the plus lens author's book, advises this Plus Lens method to children, pilots, everyone. He has used it for years since youth and under pressure from members posted the truth; that he developed cataracts, has a myopia eyeglass lens prescription implanted in his eyes by surgery, had lasik, still has unclear vision, still wears the plus lenses. Please stop this harmful method before you experience more eye, vision injuries. Books by Dr. Bates only, 'without alterations containing harmful methods' are great books. The publishers of some of the books on sell the authentic copy. But others, which are fake are listed in on the same page with the authentic book. Choose carefully. Dr. Bates true book is great. The authentic method has cured the vision of hundreds of thousands since 1919.
