Customer Reviews

I have read Barry's Herobrine series (which is a great series) so when I saw this I had to get it. It was a great book, but personally I found it a little more confusing than the Herobrine series. And I also (there are spoilers here) disliked the way Cardan and Grober greeted each other in the end. After their argument I guess I expected a tense or more heartier greeting, especially after Cardan risked everything to save Grober, but instead they simply shook hands and said hi like they were never in danger. Anyway, all in all I loved this series, and if you love playing Minecraft and like

reading a good adventure book, this is the book for you.

I loved this book it was a very good series, but can you write another herobrine book and get KU back for the series? thank you keep up the good work!

This book is great,it is well written.When the tunnel that Block got expllooded,i had tears in my eyes.So sad.I dont knlow anymore of your books but i will find them,because the books that you wrote is sooooooo good!

This book is a great book for kids out there looking for a short but cool Minecraft story! Its almost as if you are sucked into the book with Carden and Grober at your side!ÃƒÂ ÃÃ ÃÃ ÃÃ

This book is bad. If you are going to make a nother book do it on a diffrent subject.
