Average Customer Review: 4.7 out of 5 stars (4 customer reviews)

Best Sellers Rank: #403,008 in Books (See Top 100 in Books) #17 in Books > Travel > United States > New Mexico > Santa Fe #38 in Books > Travel > United States > Arizona > Grand Canyon #336 in Books > Travel > Food, Lodging & Transportation > Road Travel

Customer Reviews

A resident of Arizona for then 40 years, Tim Hull has been road tripping around the American Southwest since he was old enough to drive legally. As a news reporter and freelance writer for the past 20 years, Hull has written about the history, politics, environment and culture of the Southwest for newspapers, magazines and websites. His family's roots in the region run deep, beginning in the 1870s when his maternal great, great grandfather opened a doctor's office in Prescott, Arizona. Hull currently resides in Tucson, Arizona, and in his spare time he travels the world with his wife and writes fiction. He is also the author of Moon Arizona & the Grand Canyon and Moon

Tucson.

I was planning a road trip from LA thru Vegas to parts of Utah and Arizona. I have internet devices, but I like something that does not require batteries or a signal. I found this book to be very helpful. Using the internet, you really have no idea whom is writing what you are reading. I could tell the author of this book is a professional. He has a consistent honest style and tells it like it is. Using mostly this book I ended up planning my road trip from Zion to Moab(arches) to Page(antelope canyons) to Grand Canyon to Sedona and back to Vegas/LA. And while driving, I had my wife reading things from the chapters to where we were headed next to verify. My favorite feature of the book(other than the maps or course) is that he gives you recommendations on what to see depending on how much time you have. For example...if you just have a few hours, a whole day, or more. Just the way I think. He also shows the driving times between destinations. Exactly what I needed. Based on the book I did prioritize and skip some things (Bryce canyon for example) that I knew I just did not have the time to see. I used this book more for the parks information and driving, not so much for places to eat or motels. It does have some sections on New Mexico I think, but I did not go there. Excellent guide and book.

Great book! I bought this for my in-laws, and did some reading before I handed it over. Tim Hull's writing is clear and evocative, and I really like his choice of destinations. Highly recommended.

will get a lot of use out of this

The book gives lots of useful details and we referred to it quite often while on our trip. My only major criticism is that it left out Page, Arizona. Otherwise, the information was helpful and very accurate.
