Customer Reviews

I am glad I read this book before everything get worse in my relationship. It really helps me realize how my guy think and how he feel to me. I used to think that it was all his fault and he didn't love me but it wasn't true. This book changed my attitude and I like the past that telling about being responsible for your old happiness. that really works in my life and everything is getting better with my boyfriend.

Now I just have to actually apply this advice to my current situationship . I'm just over my heart being so broken.

Good information easy fun read.

All the topics were so relevant to what I have been going through in life. I liked the practical examples you gave in all the chapters. Some of them were exactly what I have been doing. This book really helped me to think & do things differently. I'm so happy in my relationship now.

This book was great. A lot of times I would just burst out laughing because I would be reading exactly what I or my boyfriend would sometimes do. He's so on point, keeps it short and clear. Tips are very easy to apply and discussion points clearly listed out. I highly recommend whether or not you think your relationship is doing well. Buy it, read it, apply it. If you are already doing some of the things he s suggesting you do, I m sure that there will be at least one thing will stand out and be a reminder. Great great book. Enjoyed it and will be reading it again from time to time. God bless him !

I have read numerous books on understanding the thought processes thus behavior of men, yet this one appears to be most accurate. It is an easy read and straight shooter. The author truly knows men. I loved it and will read over and over again until it reaches my heart. This is a must read for women who lack wisdom and instruction regarding men.

Many of these practical pieces of advice are just good common sense. But, considering how UN-common common sense is, many people need to read this book. Many of the points raised here are also true about PEOPLE, and not just specifically about women or men. Though much of the advice is based on the Mars/Venus differences between how women and men think and behave, this book would be almost as valuable for a man to read, in order to learn how to interact with

women better. I think a very valuable way to use this book would be for a couple to read it together, discussing each point as they come to it. It might very well save some relationships or marriages. It's a cinch it would be cheaper than paying a marriage counselor.

I have been married for 17 years, thinking I had the best marriage until my husband wanted to separate. I was so heart broken and tried to find way to cope with the situation, until I came across this book, couldn't put it down it was like a lite bulb going of like Bruce said, I realized what had happened and that it my insecurities that hindered me to see the truth. All I can say it is the best book ever. I will recommend it.
