How to Connect & Color:

- Use pens or pencils that match the colors of the dots you are joining, changing color when the dots and numbers change color.
- Start at number 1, marked with a hollow dot, and draw a straight line to dot 2, marked with a solid dot.
- Keep joining dots in increasing numerical order until you reach a hollow dot.
- Then lift your pen off the paper and move to the next dot, which will also be hollow, before then joining dots again until you reach another hollow dot.
- Continue in this way, joining all dots except pairs of hollow dots, until you've joined every dot.

I bought this book for my son who is almost 9 and gave it to him for Valentine's Day yesterday. He has already finished 2 dot-to-dots and started on 2 more. He definitely concentrates to get them done, but that's a good thing! I believe it would make a great book for older kids up to and including adults. I love that the dots within a picture are several different colors that the user can choose to use while connecting that helps the picture come to life. My daughter received Gareth Moore's Ultimate Dot-to-Dot for Christmas and this book is just as good, maybe better. This Spectacular Dot-to-Dot book is a more compact version that is closer to the size of a regular book. It also has more pages/puzzles than the earlier Ultimate book. Overall, has kept them both busy. Highly recommend!
