The iconic BETTER HOMES AND GARDENS brand is one of America's most trusted sources

for information on cooking, gardening, home improvement, home design, decorating, and crafting. Today, the brand encompasses books, magazines, and digital media.

My 7 year old son is into cooking and this was our 4th children's cook book we have bought and by far THE BEST! It is unisex for both boys and girls. It explains the basics so well that I wish I had started with this cook book. The start of the book has information on cooking terms and meanings, kitchen safety, pictiory of tools, measuring, recipe reading and healthy cooking. Recipes are child oriented like "Football Meatloaf" and "Crazy Pet Muffins." The pages are bright and colorful. It is a MUST buy for a budding chef!

I love the cartoons and kidfriendly recipes, but the ridiculous stress on fat-free everything is sad to see. Fat doesn't make you fat, people. It's actually a necessary building block for every cell in our bodies. In order to make a product fatfree, chemical additives take the fat's place. Not a positive nutritional step for growing bodies. I wouldn't have bought the book, had I known this.

I like this cookbook however I wish it had more basic recipes for kids to follow. They try so hard to make the recipes look fun that I think it takes away from learning basic cooking skills.

I thought it would have better recipes than what it does. Its okay but not alot of cooking / measuring recipes. Mostly fruit cups and granola. I guess I will just start teacher her family recipes.

Cute titles for each of the recipes, appealing to both boys and girls. My grandsons are the chefs so the book is not too girly for them. Ingredients are simple and easy to find. The book also teaches basic cooking skills, utensils and cooking terms. There are recipes for every meal and goodies, too.

While my Granddaughter might not eat every recipe in the book it made her think about it. Great book, provides all the information needed to start cooking. In addition, it helps her practice reading, math, and following directions. Thank You Better Homes and Gardens for a great first cookbook.

Purchased for my 7 year old grand daughter for Christmas as requested by her mother. She likes the book and has cooked a couple of recipes out of since then. Around the holidays these books are usually in short supply!

I love the idea of this book. My son is 5 and is pretty good at measuring and pouring. It is a great starter and a food way to keep them occupied and having fun while learning.
