This is a beginnersÃƒÂ¢Ã â ¬Ã â„¢ book. I never thought that drawing would be this easy before reading this book. I have learnt to draw different characters also (other than Manga) just by modifying here and there. I especially liked the ÃƒÂ¢Ã â ¬Ã Å"How to draw mouth & noseÃƒÂ¢Ã â ¬Ã Â• chapter as it clearly portrays how to draw microexpressions for different emotions. As I am an ardent fan of learning and applying ÃƒÂ¢Ã â ¬Ã Å"Body LanguageÃƒÂ¢Ã â ¬Ã Â• along with ÃƒÂ¢Ã â ¬Ã Å"MicroexpressionsÃƒÂ¢Ã â ¬Ã Â•, this chapter really was a game-changer for me. My suggestion for anyone who reads this book would be - start reading this book with a pencil and a paper. Start drawing right from chapter one. Apply what you learn. Modify slightly and see how your character shapes up differently. It is really a thrill to create characters on your own.My second favourite chapter is ÃƒÂ¢Ã â ¬Ã Å"How to draw male characters.ÃƒÂ¢Ã â ¬Ã Â• All these days, I used to try for umpteen times to sketch every super-hero as possible without success. The outlines, measurements and proportions taught in this book really blew me away. It made me realize how simple drawing really is. All that you need to learn are only the first few basic precautions which are taught lucidly and persuasively in this book. It would have been better if even more skeletal opening drawings were given. Would have been really great if step-by-step drawings were added to all the depicted figures. Hope an update to this ebook with more opening skeletal framework drawings is on the anvil.

Angelina did a good job on how to draw good manga. ItÃƒÂ¢Ã â ¬Ã â„¢s not every time that one can find tutorial as good as this. The pictures used in the book are all exceptional and gives you clear idea on the written instructions. For anyone who wants to take this as his/her hobby then they must have this book. ItÃƒÂ¢Ã â ¬Ã â„¢s the best that I have ever seen on this topic.

My son has been trying to sketch manga characters, but didn't really have a good guide to help him. This book on how to draw manga provided him with the guidelines on proportions, style, shapes, and key features to make his artwork look like manga characters. The bonus chapter on Dragon Ball Z excited him so much that he is trying to perfect it. The written directions and visual examples are good for beginners like him.

I think this book can go slightly more in detail. They should also give you tips on how to fix the things that you may be doing wrong while drawing anime/manga.

There is some decent information in this book, but it is FAR from a "step by step" guide. The facial expressions chapter is probably the best chapter in the entire book. Most of the book consists of written suggestions that a beginner will have trouble following, and an intermediate to advanced artist would probably already know.

Not really helpful for beginner. It is not recommend for beginner because it don't have any detail . Not helpful
