Growing Marijuana: The Marijuana Masterclass, A Guide Written By Experts

Synopsis

BOOST YOUR BUDS AND INCREASE YOUR THC LEVELS TODAY!!! Growing marijuana is one thing but growing high quality marijuana is quite another. There is a step by step process to cultivating the biggest, densest buds and developing the highest THC% possible and that's where the **GROUND BREAKING BOOK Growing Marijuana: The Marijuana Masterclass, A Guide Written By Experts** comes in. Compiled from decades of real life experience and advice for seasoned professionals, **Growing Marijuana: The Marijuana Masterclass, A Guide Written By Experts** is the **MUST HAVE** guide to cannabis cultivation. Well written and simple to understand this book lays out in step by step fashion all of the most important factors to consider when growing marijuana both indoors and outdoors. This book was written as a how to guide minus the filler and will take you through every stage of Marijuana Growing from germination to seedling to harvest and onto tested drying and curing techniques. You will learn the difference between Indicas and Sativas, growing lights and hydroponics as well as pick up tips about pH levels and how to avoid and combat issues like spider-mites and mould. If you want to produce the highest quality of marijuana with huge buds dripping in THC then **Growing Marijuana: The Marijuana Masterclass, A Guide Written By Experts** is the book for you.

Customer Reviews

I'm not a fan of marijuana because of the smell, but the book itself is a gem. From the cover to the explanations and pictures, everything flows clearly for the beginner gardener to be able to make a go of this burgeoning new industry. With recipes included, the author imparts his experience in growing marijuana, tending to it and preserving it in the best methods available to date. My only complaint - and this has more to do with Kindle than with the book itself - is that the Table of Contents should be better aligned. Otherwise, great primer.

Well written witch makes it easy to read and use when growing the plant for the first time. This book is extremely well written! It covers all the necessary areas for achieving great results. For me this was a new type of genre but im very pleased that I did read this book. It was an interesting and a giving reading experience. I highly recomend this book!

This is a great guide, packed with useful information on growing marijuana. If you're a growing beginner, this book can tell you everything you need to know. If you're an experienced grower, this book has all of the scientific nuances to refine your skills and turn you into an expert. This book is handy to solve any problems you might encounter and will teach you new techniques you can try. Definitely recommended.

A friend of mine recommended this book and it didn't dissapoint., the book is very complete, it had all the information I needed.

Excellent book! Helped me get started and answered all my questions from seed to bowl.

Good Read

This is a very short and concise well thought out read. There is so much to know about how to maximize your growing experience. Thank you Guy

This is such a helpful and interesting book! According to the authors growing marijuana is a process that requires great skill which can be put to test in other to gain advancement. The book provided various skills that will enable successful growing of cannabis, of which major points were discussed in the book such as choosing of seeds and nurturing them, setting up to grow, deciding whether you planting indoor or outdoor as well as the growing process. Well, Most people think of this wonderful plant in a very negative way but this book has proved otherwise.
