ITMB Publishing is a Canadian map publishers since the 1980s with a worldwide coverage. This title is a part of a complete series of maps on South America.

Easy to fold and read, this map of Peru will be going with me on my trip in December, and I'll be leaving it with my Peruvian friends when I leave. The "waterproof" (water resistant?) paper is a plus. One side, northern Peru, and the south is on the other side.

Good

Excellent waterproof material; good detail for such a large country with varied terrain. Good for navigating roads and trip-planning, or just gazing at. Split from side-to-side into north-south sides. Not suitable for a hiking map, as the scale is too broad. Great for a long-bus ride however!

Great quality material. Durable! It has the potential to last me a long time, so I made a case for it out

of grocery bag paper and boxing tape, for extra protection.

Good map at good price.

useful and up to date

I have traveled extensively and have been using International Travel Maps for years and I think they have the best, most detailed maps around.

I have lived in Peru and I have travel throughout the country since 1996... I have used, ripped and finished many lesser maps. What sets ITMB maps apart is their durability, readability, accuracy and quality of color... what more do you want for a few dollars? If You are going just around Cusco then get the ITMB Cuzco & Peru South. Highly recommended.
