Professor Cheikh Anta Diop is one of the truly multi-discipline scholars of African history and prehistory. He was an early African centered scholar before the term (if not the concept) of Afrocentricity was even born. His work in African historiography has been widely acknowledged (begrudgingly by in some quarters) as being seminal and original. I wish that more American departments of African and Africana studies would give his writings a more prominent place in their curricula. Perhaps francophone institutions in Africa already do.

This book is essential for African Americans to understand their original origins and dispel the myths and lies perpetrated by the Europeans and European Americans.

An addition to the library

There was a Africa Before and there will be one after

A must have for your library.

Great source of factual information documenting early African Society and history!!!

I cannot understand how people can deny this guy work? Really this dude was a genius. I know that his work was sensible. But i cannot deny that his work is legit. No other scholars have been able to discredit his work. Its a shame that mainstream academy will never allow university to study his works. GREAT BOOK. Grab a copy, its a must.

I received my package June 8th but there wasn't a book inside the package.
