I love that here are patterns included in the back of this book! Great buy and the patterns saved my but for a last minute project

Love this book. It took a little figuring out on what's what since I'm new to the topic but the diagrams are very helpful. I think the patterns that comes with the book are great. Would recommend this book.

First saw this book at the library and decided I had to have it. Lots of great fitting information and design ideas that can be used on other garments besides a wedding dress. But if your making a gown for a bride-lots of eye candy!

A wonderful book- it has a lot to offer the person sewing for the wedding- would recommend this book to others

Bought in anticipation of making my daughter's wedding dress. Will use for making her veil and embellishing.
