## Synopsis

Borneo 1:1,200,000 (Malaysia, Indonesia, Brunei) Travel Map, waterproof, GPS-compatible REISE

This map is waterproof and tear-resistant, highly durable in tropical conditions, double-sided to provide the best balance between a good scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in), with topographic and tourist information. The map divides Borneo north / south with a good overlap. Topography is shown by altitude colouring with spot heights and graphics indicating swamps, mangroves and coral reefs in the coastal waters. Detailed presentation of the road network includes dirt roads and local tracks; railways, local airports and ferry connections. Local administrative units are shown with their boundaries and names. National parks and other protected areas are highlighted. Symbols shows various places of interest including mosques, museums and longhouses as well as caves, coral, etc. Latitude and longitude lines are drawn at 1° intervals. The map has an extensive index of localities. Multilingual legend includes English, high quality German cartography. As with all maps in the REISE series, this map is printed on rip-proof, waterproof Polyart paper - durable enough to survive time spent in the rucksack, pocket or on a restaurant table, particularly in the humid tropical climate of Borneo.

Immediately found several serious inaccuracies on the Sarawak map. I fear that the map preparers did not take their job to seriously.
