Uruguay & Montevideo (Multilingual Edition)

Synopsis

A map on both sides of Uruguay: one side shows a road map of Uruguay, and on the other side you will find a detailed street plan of downtown Montevideo. Inset maps of Colonia del Sacramento, Punta del Este, and Montevideo surroundings to help you finding the International Airport de Carrasco. The legend is in English and in Spanish.

3rd Ed. 2010 1:800,000/1:10,000 Uruguay is a small country by South American standards, but its compactness also means that everything is accessible and from a traveller's perspective, visitable in a reasonable amount of time. It is also very European in its culture, cuisine, and people. This is our third version of the country and this edition updates information and changes the data base language to a more modern version, giving greater clarity to the line work and emphasizing place names. The Montevideo map on the reverse side has been updated, and inset maps of Colonia and Punta del Este have been added. Printed on paper.

We are planning a trip to Uruguay and this map is so exact that many little places we are hoping to visit can be located on the map. Very nice.

I recently returned from a driving tour of Uruguay. From Montevideo to Punta Ballena to Punta Del Este to La Paloma to Salto and back to Montevideo, which is a healthy chunk of Uruguay. This map was indispensable. The main map was the right size to plot my routes (although roads in Uruguay

are very well-marked). Don't drive Uruguay without this.

It's hard to find maps of Uruguay - usually it is an add-on to Argentina - this one is great

Uruguay is spelled wrong on one side, (and having called the map company I know they're embarrassed) but the map itself is great.

We used this a lot on our trip to Uruguay. Don't need GPS when you have this.
