Arctic Workhorse: The RCMP Schooner St. Roch

Synopsis

Dodging between the Arctic floes, almost crushed several times, the little RCMP vessel St. Roch was the first ship to conquer the hazardous Northwest Passage from west to east. Two years later, in 1944, she did it from east to west. Arctic Workhorse is a biography of St. Roch, from her construction in Vancouver in 1928, through her working life and famous voyages, to her resting place at the Vancouver Maritime Museum.

Customer Reviews

James P. Delgado is the author of many marine books, including Great American Ships and The Beaver. He is the former executive director of the Vancouver Maritime Museum.

For a brief look into the life of the "Mounties" in the Arctic this is an interesting read. For dessert you get the story of the first west to east crossing , and the second but faster east to west crossing, of the northwest passage. These were tough men!
