The Bottom Line: Getting A Grip On Your Practice's Finances

Synopsis

The Bottom Line: Getting a Grip on Your Practice's Finances by Ben Bradley You went through years of training to become a top oral surgeon, but probably were never properly taught how to evaluate financial reports. You would never expect an accountant to evaluate a radiograph, so why is it assumed you should be able to read and comprehend complex financial statements from your CPA? In The Bottom Line, Ben Bradley explains how he helps oral surgeons just like you learn to understand their OMS practice finances so you can manage your practice to be more efficient, all the while reducing your stress and improving your bottom line. As an oral surgeon, spending the majority of your time in the clinical side is where you should be. As a business owner, the better you understand the financial side of your practice the more profitable you can be. The Bottom Line helps you achieve both!

Book Information

Customer Reviews

Ben is a graduate of Bryant University with a Degree in Accounting and has a strong financial tax and accounting background, having most recently worked as a tax analyst at a large bank. He is a driven, intelligent young professional with a passion for financial planning, and an exceptional "head for numbers". His problem-solving skills and expertise with technology are a valuable addition and complement to the services offered through Terri Bradley Consulting, and those planned for the future.
