# Demons And Druids (Daniel X)

## Synopsis

Daniel X is on an impossible mission: to eliminate every intergalactic criminal on the face of the Earth. Using his incredible superpower to create objects out of thin air, he's taken on some of the most fearsome and fiendish aliens in the universe, and now he's aiming to extinguish his next target: the explosive demon of fire, Phosphorius Beta, and his army of flame-weaving henchmen. But it's going to take a whole new level of mojo to destroy this villain. Beta's strength has been growing since he arrived on Earth over a millennium ago, and he's finally ready to turn the blue planet into his own fiery wasteland. The only way to stop him is by jumping back in time to the Dark Ages to end Beta's blistering reign before it has a chance to begin. But can Daniel X take the heat? Or will the alien hunter finally get burned?

## Customer Reviews

James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson's books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

My son loves this whole collection. I do too.

I have followed the series of Daniel X and his hunt to eliminate each and every intergalactic criminal on Earth. The pace of these Daniel X stories is always fast and relentless. In this book the Number Three on the List of Alien Outlaws takes the form of raging, soul--possessing fire. And fire transports Daniel back to the most traumatic event of his life: the death of his parents. Also his best friends are in danger. The only way to save them is to travel back--through a hole in time to the demon's arrival during the Dark Ages. This is a true time-travelling sci-fi action book!

I really love this Daniel Z series. It's so different from the other books Patterson writes. I enjoy the surprises along the way of reading these books too. The whole "how will he get out of this situation now" scenarios, and how he does just keeps me interested, and turning the next page.

This is an excellent book and story!

I bought 40 books to complete my collection by S. Cannell, M. Connelly, J. Patterson, & J. Wambaugh. I haven't read all of them yet, but these guys have never disappointed, and I don't think that they ever will. That's why I read them.

I liked the concept of the book, but writing a literary review based on a few chapter teaser is difficult. I was not invested in the characters by the end of the preview. I was not captivated by scenery or even the action sequences. It was ok, but not spectacular. I truly hope in the full novel that character and setting development is more thorough.

He has powers and it doesn't really tell me how they work or how he got them but besides that very good book

I really enjoyed this one. It's typical that Daniel get himself in a situation that is difficult, but in this one he seems to have feeling a typical teenager would have. We know he is going to defeat the aliens, but to walk back with Merlin and to protect the girl he loves (even though she isn't real) brings a new aspect to the challenge.
