Drawing Down The Sun: Rekindle The Magick Of The Solar Goddesses

Synopsis

Discover the hidden mysteries of the sun goddesses and reclaim the all-but-lost archetype of the solar feminine. While today the sun is often seen as a masculine divinity, for many cultures throughout history it was the ultimate symbol of feminine power and creation. Join author Stephanie Woodfield as she explores solar-goddess mythology from around the world and shows you how to work with this forgotten side of the Goddess in a modern spiritual system. *Drawing Down the Sun* features fourteen different goddesses, and provides practical guidance for embracing their divine spirit through pathworking, rituals, and spellcraft. Learn how to bring abundance into your life with the Baltic goddess Saule. Call upon the Egyptian goddess Sekhmet for strength and courage. Draw upon the sun's healing energy with the Celtic Brigid. With invocations, spells, and incense recipes, as well as instructions for solar magick, meditations, and more, this comprehensive guide is perfect for connecting with the solar feminine.

Stephanie Woodfield (Brookfield, CT) has been a practicing Witch for over fourteen years and a Priestess for ten years. Her lifelong love of Irish mythology led to a close study of Celtic Witchcraft. A natural clairvoyant and empath, she has worked as a tarot card reader and is ordained as a minister with the Universal Life Church.

I loved this book. There are many Solar Goddesses that have captured my heart, mainly Hathor, Isis

& Sekhmet. Celtic Goddess Brigit also is included as a Solar Goddess to me. Yes, most of us think of the Goddess being a Moon Goddess. But there is power in the Goddess who is connected with the Sun's power. This book is overdue, and welcomed in my library. I will recommend this book to students & friends.

This is an excellent book for learning about solar goddesses. Woodfield breaks down the book by geographic location and the sun goddesses of those areas. The chapters have guided meditations and suggested rituals for working with the different goddesses. Woodfield also includes a nice appendix section that lists solar stones and gems, and solar herbs.

I loved the mythology that is shared in this book, as well as the information I learned with all of the sun goddesses. The meditations are beautifully written and I loved all of the rituals that were included. It was so refreshing to pick up a book to learn about the different deities she included. I would love if Ms Woodfield would write a part two.

A wonderful collection of mythology and ritual relating to the solar goddesses. The solar feminine isn't an archetype that most modern Pagans think about, so it was a very refreshing read.

This is one of the most fascinating books I have read. I recommend it. A must read book.

One of a kind. I have never read a book like this, the material and topic is one that I have never heard of before. It is written beautifully.

Very nice. It came very fast too. Ordered it 3 days later it shows up. So happy with my new book.

excellent
