Landscapes In Watercolour (Collins 30-Minute Painting)

Synopsis

This practical and inspirational guide, in a handy sketchbook format, is aimed at the practised beginner and shows how to achieve successful watercolour landscapes in just 30 minutes. It's ideal for the busy amateur artist who doesn't have much time to paint. Many people think they don't have enough time to paint, but in this attractive guide Paul Talbot-Greaves encourages quick and simple painting. By working with just a few materials and focusing on the key techniques it is possible to achieve successful, realistic landscape paintings in no more than half an hour. And for those artists who already have a little painting experience, learning to work more quickly enables them to free up their style and paint more spontaneously. All the key topics are covered, from watercolour techniques, colour and tone to learning about creating distance, composing pictures and selecting scenes.

Customer Reviews

Great little book

Great book! Simple, straightforward and very informative.

Not using it, didn't know it was digital, my fault.

Nice little book on watercolor.

BEWARE KINDLE PURCHASERS! This book is full of missing images. In the first few pages alone, there are several missing images with just a paintbrush symbol. I looked ahead, and they are all through the book. I saw one tutorial that had step-by-step with images, but the image of the final, finished painting was missing. This is very frustrating and had I known, I would not have bought the book.

The author clearly explains techniques and concepts, and demonstrates how certain techniques can be used to create gorgeous paintings. However the book has only four guided paintings - each consisting of only three or four steps. If you want to learn theory such as the importance of tone or the rule of thirds grid system in a concise way, then this book is excellent. If you want a book that will give you a variety of quick exercises to practice your new skills, this book unfortunately doesn't really have them.

I love these landscapes good instructions for beginners too.

I enjoyed this. Especially for the price.
