Roar! Shh!: A Sounds Board Book (Early Birds)

Synopsis

Introduce children to sounds in this tabbed, brightly illustrated board book! In this first concept book, little ones can turn the tabbed pages to learn different sounds in their world! The spreads feature a jungle, a town, a home, a farm, and a pond. The reader is prompted with "What can you hear?", and the noises that the animals or objects on the page make are included.

Martina Hogan is an artist and greeting card illustrator from Liverpool, England. She moved to Yorkshire to get a degree in Design and Illustration and now runs an open studio there, where she also designs products and toys.

This book does not make any sounds. You cannot press the tabs to play music or noises. The title is misleading. The book is pretty with nice colors and illustrations, but not sure I would have bought if I knew it didn't play sounds.

Not a great attention grabber for 18 month old

My toddler learned some of his animal noises from this book. Definitely broadened his vocabulary.

Very nice little book for little ones.

Misleading - the book doesn't make any sounds.

9mo old baby likes this book due to the pretty colorful pics

My son loves it

our little friend loves the book.
