Customer Reviews

Ok

I love this book!!! It is like reading a small biography every time

no complaints

arrived fast, and in the "like new" condition that was stated in the description. Thank you for the speedy service!

This is the art history book you want for an excellent overview of art during this time period. It is clear, concise, and always interesting. You can refer to more specialized texts for areas that interest you. Belongs on the bookshelf of everyone who is interested in art.

If one reads this book in hopes of getting a fairly complete overview of art of the early Twentieth

Century, they will not be disappointed. However, if one is looking for something more in depth, with various examples of an artists oeuvre, then perhaps they should keep looking. One of this book's greatest virtues as an overview is that it does not assume a great deal of knowledge of art on the part of the reader and is relatively engaging. However, images are few and far between and not always of the best quality, which I find to be an integral part of an art historical publication.
