Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This is a two sided map. One side is mainly of British Columbia and the other of the Yukon and Northwest Territory. Good detail of major roads in Yukon and mountain ranges, but nothing shown of smaller, less traveled roads. Also, very little information concerning the NW Territory.

Not as good as a topo map but showing the main roads. well done.

Looks great.

Did meet, will use on pending trip
