Elements Of Grammar

Synopsis

The essential guide to refining and improving grammar – from the basics of sentence structure to the art of composing written works. A concise, comprehensive handbook of the basic rules of grammar and usage that presents invaluable tips on how to implement these rules in everyday writing and speaking. Succinct and immensely practical with coverage of punctuation, capitalization, the parts of the sentence, words often confused, foreign words and phrases, numbers, signs and symbols, etc.

Nice little concise book to have on your desk. Unfortunately, I started reading this after I had read Steven King's "On Writing" and was easily bored. A week off and I found I kept looking things up in it. Easier to grab Elements, than the Chicago Style tome. (now a door stop). This is worth the small price to adorn your desk, and get thumbed to death.

As a lawyer, I find our young attorneys don't know grammar worth a...uh...they don't know grammar.

I purchased a copy of this book for each of them. Very good resource!

We can all use a little (more) grammar in our lives. This is (or was) a required book for some college English class but I've referred back to it regularly over the years. It's a must, in my opinion, for any home office or home library, whether or not you were, are or will be in school.

Any writer (and every student) needs a copy of this timeless classic. No matter what your choice of medium happens to be, you will write better, you will make yourself more clearly understood, and your written words will give a good impression if you follow the rules.

Good and easy to read and follow.

You should keep this book handy whenever you attempt any serious writing. It's easy to forget certain grammatical rules. The book is easy to use and worth every penney.

I chose the book because it was suggested to me by a friend. It has all the information I might need. However, for me (an old guy), it is somewhat hard to fin the cases when I try to look them up. I would recommend this book to young, and even college age kids. I think it would serve them better that it has served me.

exactly what I wanted, thank you!
