We love this series for our history lessons for our home school. This is our third year using it and all 3 of our kids have enjoyed these!

This is a great book for home schooled kids and any others that want to read the Classical edition. Our grandkids like this book and have learned so much. Glad to have purchased.

Bound tests and answer key for the *Story of the World V 3* are just as anticipated. Set of chapter tests in multiple choice or matching format, and grading key. Bound and 3 hole punched.

This test book accompanies the literature of Early Modern Times, and it is another really great book. We use it as an open book test after reading the entire history book to our children. This way our children are reviewing every chapter on their own, and they are able to retain more information from each story.

The problems: We've found two mistakes in the answer key so far (through Chapter 9), and I think that once or twice the questions have been a little too esoteric based on what's covered in the chapter. Generally speaking, though, the questions are written at a challenging but appropriate level for our 8-year-old (although I can't imagine using the tests for a child any younger). These little problems do not outweigh the usefulness of the tests in general. We've found them helpful enough

that I would still recommend them to others as a means of ensuring that a student is comprehending the materials in the Story of the World text.

This test book was so helpful when I was using the Story of the World Vol. 3 history book. It saved me so much time when I didn't have to come up with my own tests. I really liked the mix of fill in the blank, multiple choice, and long answer questions for each chapter. I'll definitely use it when we study this era again in a few years (with my younger kids...)

Great

I like this book for a "test" book for my children. It is easy to understand for the children when they complete the: fill in the blank, true and false, or essay questions. Would recommend this book with the activity book.
