The Ketogenic diet is gaining a lot of popularity as of late and it's easy to see why. You work with your body by putting it in a state of ketosis to make your body use fat for fuel instead of carbs. The tricky part with the diet is knowing what to eat because coming up with delicious recipes isn't always easy. That's where this book really shines because it provides you with a lot of easy to make recipes that you'll enjoy eating. Seriously if it's too hard to sustain a diet then you won't do it, and this book makes it easier to get started with the Ketogenic diet so it can be a lifelong endeavor.
