Customer Reviews

"A beautiful book" - The Fairy Tale Site "Awesome book, chock full of mythological lore." - Starpulse "It is a perfect companion to the weekly series and would make a wonderful gift for the upcoming holidays." - Examiner "It's beautifully presented and... gives a genuine illusion of age; there are even creases and claw-marks that show the next page through them, just as if the book itself were torn... this book is a great accompaniment, one that's been created with care and affection." - Starburst "For any Grimmster, I think this book is a must have!" - TV Equals "It's a fun companion for diehard fans of the series." - Borg.com "A must-have for any true Grimm fan!" - Fresh From The "A gorgeous book" - Bloody Disgusting "Does a great job of explaining the Wesen and their histories." - Atomic Moo "A wonderful slice of TV history." - Ain't It Cool "More than just a TV companion book" - FEARnet

This book is a Christmas present for my daughter who is a huge Grimm fan. She will love it! The book is gorgeous and beautifully detailed. One caveat- the pictures really are like those on the show so young children may be disturbed if they flip through this.

Then you will enjoy this book. Just imagine that the stories you read as a kid actually described real beings and their interactions with humans. Fun, huh? And more than a bit scary. This book is a companion book of sorts to the television story of a modern descendent of the Brothers Grimm - a police detective in Portland, Oregon. He discovers that certain members of his family, himself included, can actually see these Wesen, or members of the fairy tale creatures community. The book is a replica of one of the books handed down in his family and it contains drawings and information about some of these beings. Some of it is written in German, some in Latin, Spanish and English. All of the texts, as far as I can tell, are translated into English. I find it fun and I like to have it with me when I watch the program, so that I can look up the creatures along with the detective. I enjoy it and hope you will as well.

Christmas gift for my niece. She loved it but groups of pages fell out :(

////////////////////I note others commented on poor quality
BINDING:Absolutely NOTHING wrong with MY book... but, it helped make the PRICE very attractive.
Buy it NOW before it either sells out, or the price
i-n-c-r-e-a-s-e-s!////////////////////This was MORE than I
expected.The covers also serve as bookmarks... or you COULD fold them out to be
bigger-looking,like the books you see on-air.Not all of the listed creatures are actually in THIS
book... maybe a second one coming up? My wife---being German---enjoys looking through the book
as well.I was very pleased with what I received.The artwork/photography is amazing.The WET
blood-spot on the front cover is GREAT!Don't forget to get theÃ Â Grimm Key Necklace
CollectionÃ Â or, just the PIN!

The best book out there!!! Grimm is THE BEST show ever on television. This book is a great collection for all those GRIMM fans out there who miss the show as much as I do. The price is excellent and the stories in the book are amazing. Great buy.

I also had the cover/first page separate from the spine. I am going to glue it back and move on. The

book was not expensive. As for the contents, super cool imho!!!! It makes watching the show much more interactive! Last night I was able to look up 3 wesen before the end of the episode (I'm catching up on episodes). It is an awesomely neat little book. All the pictures are just like the show, there are a few extra images added here and there that are linked to something in the show and that specific wesen. There are plenty of translations, etc. It was well worth the money, spine pop or not.

For what it covers it's a pretty good book, but there are so many creatures that the book doesn't cover that I was a bit disappointed in it. It skips right over the Fuchbaus and many others. If you are looking for a book that covers all of the Grimm creatures, keep looking. Don't get me wrong, the artwork and presentation are top notch, but it's not complete.

This book has similar illustrations like what you have seen on tv. But it contains only the most common ones, or the ones that were in the first/second season. It does not have all the illustrations. But Aunt Marie had several books, maybe this is just the first one....I still enjoy reading and browsing it.
