Customer Reviews

Very informative and highly detailed...

It is not a book of building boats, it is a catalog to buy plans of building boats.

Just perfect, thanks.

Just what I wanted for reference.

This series of books is a lot of fun - you can read them over and over. A lot of information and entertainment for the price!

Not much to say about this series of books, but if you are looking for ideas on what kind of boat to build, this will fill your head with ideas.

Every thing I had ever hoped for in a brief overview of of the 30 boats showcased. Hic summa quod

nice book
