I feel like my son got ripped off. I let him pick out books with his Christmas gift card and this was one of his picks. The text does not fill the pages and is largely double spaced. Page after page only has text covering less than half the page then blank the rest of it. The description says 72 pages but this easily would have fit on half of that. The pictures are very poor quality and hard to tell what they are. Very generic and very poor quality.

My eight years old daughter liked the book. The only complaint was that it is a bit short , but still fun to read.

I love minecraft! Well, who doesn't! This book is hilarious and as I know what all the monsters This book is a great book ,its a book you cant put down.This book would be great for some one who does'nt know anything about minecraft as it would be so much more interesting to share the journey with steve and learn new things with him.

I liked this book because it shows the past of all of the other dragons. I did not like that the enderdragon was not very smart with regards to his crystal placements.I recommend this book for a boy who is 7 & 9 years old.I chose a 4 star rating because I liked how the enderdragon had healing crystals.

After reading that this was 72 pages, I was pleased. However it turns out that there are only a few words/sentences on each page. What a rip off. I should researched this book more in depth before purchasing.

The book was only a couple of pages, he's 9 and read it in 15 minutes.

I loved the illustrationsI liked the endingIt was a good bookI like liked this bookThis is goodI give this five stars

My son loves it
