Customer Reviews

This is quite a useful book. It states clearly what is included, has bright colourful diagrams and good explanations. There is lots of little boxes with hints and there is a good index. The chapter headings and what is included in each is clearly explained. This is not a book to sit down and read from cover to cover, rather it is a reference book when you have a query. This guide book is perfect in providing guideline about I phone7. Thanks to the author.

I personally think The iPhone 7 is a great device and apple continues to make in advancement and innovation. Its like a powerhouse in hands and addition to my busy lifestyle. About this book i only can i don't take this book seriously before purchasing i was just curious about what the author provided in this book but i am impressed with this book. Charles took almost every i should know about a phone. Recommended for every phone user.

A great read. There are lots of little boxes with hints and there is a good index. This guide book is written in a very simple language which is very easy to understand even for a common man also. This guide book is perfect in providing a guideline about I phone7. This guide really helped me How to use your latest Apple device to the fullest. Well written and very comprehensive. Recommended

This is quite a useful book. It states clearly what is included, has bright colorful diagrams and good explanations. This guide book is perfect in providing guideline about I phone7. Its very readable and has numerous clearly defined illustrations. Just what a beginner needs for the iPhone to learn all the ins and outs. Great book.

I was in the Android camp before my husband bought me an iPhone 7. And I had so much difficulties dealing with it at first. Yet when I got this manual everything for more or less clear, like the iTunes and stuff. So I would surely recommend this guide to any newbie like me

This is a great book with a lot of useful information. I took the book for my brother because he had recently received the iPhone 7. He is very pleased and he says that the chapters are easy to follow and everything is very understandable.

Short and meaningful hints to help us improve our use of the 7...and it was free. If you're new to iOS or iPhone, this book will help you a lot. Highly recommended.

The iPhone book for my were much more then I expected. It covers all you would expect and much much more. I found it very useful. I am a student and this kind of book helps me a lot. The book is very easy to understand.
