Customer Reviews

A fun approach to learning French for young (and young at heart) students. Very inclusive, featuring French speakers of many nationalities and ethnicities.

This is a good book, but does require an extra purchase of CD/DVD to be able to complete all of the activities - I wasn't able to find said accompanying product in a quick search, as there are many different versions of every text & CD, so I just have my students do the written and reading activities and skip the other ones.

This package suppose to come with a code but there is no code. Really? How are students suppose to do their homework, which is mostly based on audio they don't have access to? This is ridiculous!!!

This book is very helpful. Though a lot of the exercises are based on listening. I wish that either the book came with CD or buying it was an option.

Material is necessary to be accompanied by the "Discovering French" audio companion to help with some of the exercises. The additional laminated cards outlining each chapter was very useful.

It is exactly what I expected....brand new and sealed. I hope that I'll be able to purchase more copies in the fall.

It would be better if it had a companion CD.

Bought this text book for my daughter who is being tutored by a French teacher. My daughter is 12 but this is the same book the tutor uses in her high school French class. Book is easily understandable and great for the beginner. Book shipped as described in great used condition.

My daughter needed this book for her French class, she was told by her teacher to buy it at . It came fast and the price was ok.
