Customer Reviews

Great book!

Kelly needs it , best service, patient. as the price. i love the product, it is very well balanced, has lot of weight to it, and it is very sharp. it cuts through bread so easily and makes perfect slices. quality. I'll be buying again. very fast, receive it next day,

This educational, informative and handsomely illustrated book, from the Usborne Illustrated World History series, is an excellent visual reference for young readers. It offers an in-depth look at Roman civilization, from the founding of the city of Rome to the decline and fall of the empire to the birth and evolution of Constantinople and the city of Byzantium. Topics such as history, sociology, politics, economy, culture and religion are covered. This book is also packed with colorful pictures, detailed diagrams, realistic drawings, accurate reconstructions, and handy maps to help illustrate the points being explained and give the reader a vivid look into Roman history. As a bonus, this book has a wonderful appendix that contains:

- * A glossary that explains Latin and Latin-derived terms used throughout the text.
- * A collection of mini biographies of key figures in Roman history.
- * A date chart from around 2,000 BC to 1453 AD outlining relevant events and significant historical developments that took place both in the Roman world and elsewhere during this period.
- * A summary of the most

important ways in which we were influenced by the Romans in building techniques, travel and communications, architecture, the arts, language, law, government, literature and ideas.* A thorough index for quick check-ups and specific consultations. Although this book was published in 1990, so some of the information in it may no longer be completely accurate, it is still a beautiful, entertaining and complete reference for children, and a fun, effective teaching tool for adults. Other recommended titles from this series: First Civilizations and The Greeks.--Reviewed by M. E. Volmar

Great book with wonderful illustrations. Use it in my classroom to talk about ancient Roman culture.

I am a homeschooling mom of 4 (11,9,5,3) and I purchased "The Famous Men of Rome" from Memoria Press. While I liked to book, I knew that I would lose my children and not be able to keep them interested. I decided to purchase this book and I'm certainly glad that I did. The book covers so much more and really gives an idea on what life was like during that time. While studying the people are important, I wanted my kids to see how they dressed, what they ate, what they did for entertainment, how the coins looked, etc. It's just a great book and I recommend it.

This is an excellent book for teaching Roman culture to middle school or elementary school students. Every parent should have a copy in their home libraries. Every teacher including Greeks and Romans in their curriculum should have it in the classroom. This copy arrived on time and in excellent condition.

We use this book for history class in homeschooling. My son loves it. You can look up more things in depth on the usborne website. The illustrations are really detailed and makes this book more interesting and fun for the kids. If your child is not interested in reading complicated history books, this is the book for them.

Hilarious!

Perfect thanks
