Customer Reviews

A woman awakes and can remember nothing, her past, her name or where she lived or if she even lived in the Sagebrush community. Now, with the help of a local K-9 officer,

“Heidi” is attempting to fill in the void of her memories. With a budding romance, “Heidi” is falling for Officer Lee and his dog.

Some of her life feels right while some of it doesn’t. When she begins to

remember, her life is in mortal danger. Though “Heidi” doesn’t know what her real name is, she is sure about at least one thing: she is in love. Her desire to learn her real identity becomes paramount if she is ever to have a future and a family. The characters introduced to the audience began with *Tracking Justice* written by Shirlee McCoy and they follow into book two written by Margaret Daley. Not all of the mystery surrounding the latest happenings in the woods area is solved, especially when no one knows the identity of a local crime syndicate boss. More bodies are found and no one is talking due to the fear of The Boss. I had read another series by Margaret Daley involving the state of Texas and law enforcement. The stories are compelling as the author brings life to her characters by the way she describes them as well as the story or action taking place. So, when I picked up the second book in the K-9 series and saw who the author was, I had no doubt I wouldn’t be able to put it down until I had finished. I didn’t either! Now I will delve into book three of the K-9 series titled, *Guard Duty*. I hope you join in reading the series as they ignite the imagination and spur the heart’s action!

I started with the first book and am reading the series. I have now read three of them and am ready to start *Explosive Secrets*, #4. I would say this is the best written of the three I have read. The story unwinds slowly, but kept my interest. I like the way she wrote about the girl with amnesia, you are wondering all the time what could have happened to her to make her like she is. The ending really tied up all the loose pieces from this book. I am looking forward to finishing the series so I can finally find out what is happening in that town.

Detection Mission Texas K-9 series book 2 thanks to author Margaret Daley Officer Austin Black finds Brady age 7 in book one *Tracking Justice*.. He sends Officer Lee Calloway after a confused woman running in Lost Woods - a huge forest used by criminals outside Sagebrush, Texas. K-9 officer Kip is cadaver dog. He’s found a number of bodies in Lost Woods. When the woman comes out of a coma, she has no idea who she is, where she was from, how she got to Lost Woods or who was chasing her. Jane Doe choose the name Heidi. Heidi discovers who what she likes or is good at - not sewing. She distrusts cops for some reason. And doesn’t want her picture and name put out to see if someone knows her. Lee introduces Heidi to Molly Givens who gives her a place to live and encouragement.

If you want a clean, easy read, friendly books, than this is it. It is so nice to be able to read a book

and it isn't full of sex or language. It is a tiny slow in a few places, but that doesn't last long. The books keeps you guess as to if the lady in the story is really a bad person or really running for her life.. I was a little sad about the the ending, it sort of just stopped and there seemed to be a bit more that could have been told, and I think it would have been even better if they hadn't ended the book the way they did. The author has me hooked on this line of books, just downloaded one a few ago..

This is the second of six books, all of which are like long chapters of a really long book..or like a mini-series on TV. I saw a few editorial mistakes, but other than that, I found these books to be very enjoyable even though you could sense some of what was going to happen. Give this book a try. While the big issue isn't solved until book 6, something is solved in each book, so there is a sense of closure for the theme of each one.

I truly enjoyed this book. The mystery unfolds slowly keeping you enthralled with the book. The book is one of a series so getting the other books helps you to understand how the search started but you can pick up on it later in the book. The twist at the end does add to the reason she doesn't want to remember what happened. It keeps you reading and enjoying the book all the way to the end. The rescue dogs adds great interest in the story and even people who don't care for dogs will enjoy the interaction of dog and partner. A must read.
