As of now, this is the best place to start...still not all popular songs are included...but still the best to dateSongs are here in there entirety...if you want easy guitar stuff go elsewhere, this is to the actual recordings...Some Crazy Horse songs are ment for two guitar players not one...but either way rhythem or lead is still great to use...Acoustic songs are 100% correct...so are the eletric can't stress it enough...Best place for any guitarest into Neil Young to start...also, the unplugged tab book is great as well...5 starts....

Love all the detail. It's not for beginners but intermediates will have fun working it out.

I found the tab in this book very hard to follow. I am a beginner guitar player, and Neil Young is always a good place to learn. However, the tab seems filled with unnecessary info that make the bass notes hard to follow. Even simple songs that I knew like, "The Needle and The Damage Done", were brutal to follow. If you want an ABSOLUTE tab layout of the songs, with EVERY single minute noise, then get the book. Poor indeed, as far as I'm concerned.
